

Plastic enclosures with integrated handle

CARRYTEC plastic enclosures are unique in offering a functional handle for many different tasks and situations, indoors and outdoors.

- · integrated handle with soft insert for perfect, non-slip grip
- CARRYTEC M in a slim enclosure version for mounting tablets etc.
- handle located above the centre of gravity for balanced carrying
- rear can be installed on a tripod or support arm systems for fast positioning and alignment of the viewing and operating panels, and orderly cable management
- especially large surface area that is ideal for user interfaces (S: 8.4"/21 cm; M: 10.4"/26 cm; L: 13.4"/34 cm)
- ample installation depth and plenty of room for interfaces, yet slim appearance
- interfaces are protected by inset areas on the underside
- secure storage on table stand and/or wall suspension element; easy transmission of data and charging current, contacts as accessories (except slim enclosure version)
- holding clamp for round tubes and rails according to DIN EN ISO 19054
- available moulded in impact resistant plastic material, and darker colours, for tough/dirty conditions indoor or outdoor
- protection class IP 54 with sealing (accessory)
- · recessed operating area for protecting the membrane keypad
- · the enclosures are easy to clean
- a battery compartment for 5 x AA cells can be fitted (machining required)
- optional protection bags for carrying probes, sensors, cables etc. (sizes S and M)
- · internal fastening pillars for PCBs

Applications and Examples

Unique variety of possible uses: mobile – desktop – wall mounted – rail mounted – round tube – tripod – suspension arm. Depending on the application (indoor/outdoor) this innovative enclosure is available in different materials, e.g. high-impact plastic material in darker colours for tough conditions. Medical, e.g. emergency systems, monitoring and alarm equipment. Diagnostics, therapy, laboratory devices. Test and measurement equipment. Communication technology. Mobile terminals, data collection units. Energy management systems. Sensors. Industry 4.0, smart factory. Machine building and construction equipment. Agricultural economics, forestry.

Air velocity meter

Battery filler for aviation batteries

Camera inspection

CNC Machine Monitoring

Diagnostic camera for illustrating the machine status

Hand held HD-camera and monitor system

Indoor Farming Monitoring

Mobile radio remote control unit for orbital welding system

Mobile testing device for costeffective fault analysis

Monitoring system for cleaning nozzles

Multi-functional measuring instrument

Patient Simulation System

Portable receiver

Customising Options

What do you still need for your own very personal product? We can supply enclosures and tuning knobs with all necessary modifications for fitting your electronic components.
