

SMART-BOX

Advanced IP 66 plastic enclosures

The rounded ergonomic design of the SMART-BOX series is designed to enhance the visual impact and tactile quality of your industrial electronics.

- convincing design; hinged flush-fitting trims hide all the case fixings
- high-quality material ASA+PC (UL 94 V-0) for use in tough conditions; also flame-retardant and self-extinguishing
- high protection class IP 66 (width 90/110/130/150), IP 65 (width 170) ; with pre-fitted sealing gaskets in the top
- high-quality A2 stainless steel alloy screws with high corrosion resistance – even against aggressive substances
- universal use for wall mount and desktop applications
- screw shafts for wall mounting hidden under the hinged trims
- case feet (accessory), simply snap-in ensure non-slip desktop positioning
- two plastic lid retaining straps included
- recessed operating area for protecting a membrane keypad; additional surface for labels on the underside
- internal fastening pillars for PCBs and DIN rails

SMART-BOX

Applications and Examples

Ideal for design orientated electrical and electronic applications, e.g. heating, air conditioning and ventilation engineering, control and system engineering, safety technology, IoT/IoT, smart factory, industry 4.0, gateways, etc.

Active UHF RFID system

Agricultural climate Control

Data logger for machine monitoring

Miniature data logger for crack displacements and climatic data

Pedestrian Alert System

RFID card reader for construction site workers

Universal temperature controller / Temperature difference controller

Customising Options

What do you still need for your own very personal product? We can supply enclosures and tuning knobs with all necessary modifications for fitting your electronic components.
