

STANDARD DESIGNS (INDIVIDUAL SIZES / ADDITIONS)

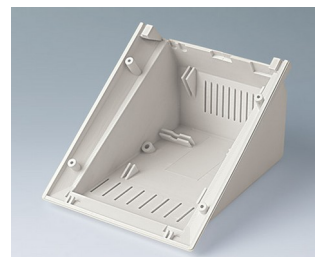

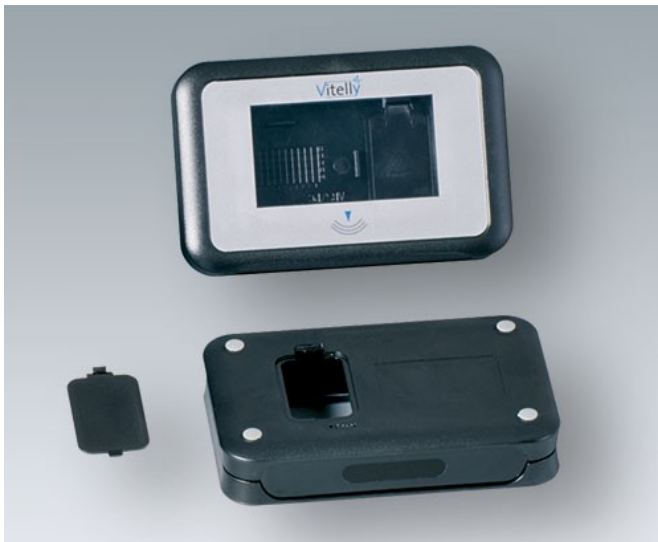

We can adapt ...

- individual components, e.g. lower or higher top and bottom parts with your cutouts, or
- the size of the entire enclosure
- custom cutouts for interfaces, displays, operating elements and LEDs

Your advantages:

- combination with standard parts ensures cost-effective solutions
- with a special size, you have your enclosure exactly adapted and produced to fit your electronics
- rely on OKW's innovative technology – save valuable time in development and time-to-market
- uniform design features – this is an advantage for your product portfolio when using different sizes and series of enclosures
- aesthetic design and high quality from the specialist
