FROM STANDARD TO INDIVIDUALITY

LACQUERING

We can lacquer the enclosures in any colour you wish to suit your application or company branding. OKW offers a wide choice of lacquers. They include soft-touch, metallic effects and ESD conductive lacquer to prevent electrostatic discharges.

SPECIAL MATERIAL

CUSTOM COLOURS

On request we can also produce many of our enclosures in custom colours. To match the colour you require, we can have the natural plastic material coloured and extruded to a high standard. Custom colours can be specified based on a sample or on RAL or Pantone shades.

V-0

Manufacturing of enclosures in flame-retardant (V-0) plastic on request.
